# An Impact of Firm Based Characteristics on Intellectual Capital Disclosure Practices

by

Chandrasegaran Larojan

A thesis submitted to the University of Sri Jayewardenepura in  
partial fulfillment of the requirements for the Degree of Master of  
Science in Management on 2016.

**Declaration**

“The work described in this thesis was carried out by me under the supervision of Dr. A.A.J. Fernando and a report on this has not been submitted in whole or in part to any university or any other institution for another Degree/ Diploma”.

*C. Larojan*

## **Table of contents**

Table of contents.....	i
List of tables.....	vi
List of figures.....	viii
List of appendices.....	ix
List of abbreviations.....	x
Acknowledgements.....	xii
Abstract.....	xiii

## **CHAPTER ONE: INTRODUCTION ..... 1**

1.1	Background of the study.....	1
1.1.1	An overview of corporate reporting.....	3
1.1.2	An overview of Sri Lankan economy in the context of ICD practices.....	5
1.2	Problem identification.....	8
1.2.1	Research questions.....	10
1.3	Objectives of the study.....	10
1.4	Motivations for the study.....	10
1.5	Significance of the study.....	11
1.6	Scope of the study.....	13
1.7	Limitations of the study.....	13
1.8	Outline of the thesis.....	14
1.9	Summary.....	15

## **CHAPTER TWO: LITERATURE REVIEW..... 16**

2.1	Introduction.....	16
2.2	Theoretical underpinnings.....	16
2.2.1	Agency theory and ICD.....	17
2.2.2	Stakeholder theory and ICD.....	18
2.2.3	Legitimacy theory and ICD.....	19
2.2.4	Signaling theory and ICD.....	21

2.2.5	Integrated theoretical framework .....	22
2.3	IC measurement models .....	24
2.3.1	Intangible Asset Monitor.....	24
2.3.2	Skandia Navigator Scheme .....	26
2.3.3	Balanced Scorecard.....	27
2.3.4	The MERITUM Project .....	28
2.4	The relationship between IC and Integrated Reporting.....	29
2.5	Definitions and elements of IC.....	30
2.6	ICD index .....	34
2.7	Quality score of ICD .....	37
2.8	Empirical studies on ICD based on content analysis method.....	39
2.8.1	Longitudinal studies on the extent of ICD practices conducted in abroad.....	41
2.8.2	Longitudinal studies on firm based characteristics on ICD practices .....	47
2.8.3	Longitudinal studies on ICD practices conducted in Sri Lanka.....	52
2.9	Identification of research gaps and research questions .....	59
2.10	Summary .....	60
<b>CHAPTER THREE: METHODOLOGY.....</b>		<b>62</b>
3.1	Introduction .....	62
3.2	Research methodology .....	62
3.3	Research sample .....	64
3.3.1	Population .....	64
3.3.2	Sample.....	64
3.3.3	Unit of analysis .....	65
3.4	Mode of data collection .....	66
3.4.1	Selection of ICD items.....	66
3.4.2	Weighting of ICD items.....	69
3.4.3	Quality criteria .....	69
3.4.4	ICD index.....	69

3.4.5	Coding of annual reports.....	73
3.4.6	Reliability and validity of content analysis.....	73
3.5	Mode of data analysis.....	74
3.6	Research variables.....	74
3.7	Conceptual framework.....	75
3.8	Hypotheses of the study.....	75
3.9	Multiple regression model.....	84
3.10	Operationalization of variables.....	85
3.11	Summary.....	88
<b>CHAPTER FOUR: ANALYSIS.....</b>		<b>89</b>
4.1	Introduction.....	89
4.2	Descriptive statistics.....	89
4.3	Disclosure of IC items: extent and quality.....	91
4.3.1	Disclosure of internal capital items.....	91
4.3.2	A longitudinal comparison of InCD.....	92
4.3.3	Disclosure details for each item of internal capital.....	94
4.3.4	Disclosure of external capital items.....	97
4.3.5	A longitudinal comparison of ECD.....	98
4.3.6	Disclosure details for each item of external capital.....	99
4.3.7	Disclosure of human capital items.....	102
4.3.8	A longitudinal comparison of HCD.....	103
4.3.9	Disclosure details for each item of human capital.....	104
4.3.10	Comparison of overall ICD of sample companies from 2010 to 2014 ...	107
4.4	Disclosure of IC categories: extent and quality.....	109
4.4.1	Extent of the disclosure of IC categories.....	109
4.4.2	Quality of the disclosure of IC categories.....	112
4.5	InCD, ECD, HCD and ICD of the companies: extent and quality.....	113
4.5.1	Extent of InCD, ECD, HCD and ICD of the companies.....	117

4.5.2	Quality score of InCD, ECD, HCD and ICD of the companies.....	117
4.5.3	A longitudinal comparison of the quality of InCD, ECD, HCD and ICD of the companies .....	118
4.6	Current status of ICD in Sri Lanka.....	121
4.7	Changes (trend) of ICD practices over the years 2010-2014 .....	123
4.7.1	One-way repeated measures ANOVA .....	123
4.7.2	Paired sample t test.....	125
4.8	Inference statistics .....	127
4.8.1	Univariate analysis .....	128
4.8.2	Regression results and the hypothesized directions based on pooled regression .....	138
4.8.3	Regression results and the hypothesized directions based on fixed effect method	143
4.9	Additional tests and analysis .....	149
4.9.1	Independent sample t-tests .....	151
4.10	Summary .....	159
<b>CHAPTER FIVE: DISCUSSION.....</b>		<b>160</b>
5.1	Introduction .....	160
5.2	Discussion of the extent of ICD practices of the sample companies .....	160
5.3	Discussion based on the results from hypothesis testing based on pooled regression method .....	162
5.4	Discussion of findings in line with theories .....	165
5.5	Discussion of findings with research questions.....	167
5.6	Achievement of the research objectives .....	168
5.7	Summary .....	170
<b>CHAPTER SIX: SUMMARY AND CONCLUSIONS.....</b>		<b>171</b>
6.1	Introduction .....	171
6.2	Summary of the thesis .....	171

6.3	Conclusions .....	174
6.4	Contributions of the research .....	175
6.5	Filling the research gaps.....	175
6.6	Policy implications .....	176
6.7	Recommendations .....	177
6.8	Directions for future research.....	181

S&P	Strong and Poor
SRR	Social Responsibility Reporting
TBL	Triple Bottom Line
VIF	Variance Inflation Factor

## **Acknowledgements**

It is my great pleasure to acknowledge my sincere thanks to all those who have given me help during the period of this thesis.

First of all, I would like to express my sincere gratitude to my supervisor, Dr. A. A. J. Fernando, for his continuous guidance, stimulating encouragement and valuable suggestions. His continuous intellectual efforts from generating research ideas in the first day of supervising until completing this thesis have been tremendously helpful. I am extremely thankful for his guidance which have boosted my confidence and made me find my way and go ahead.

I would like to offer my sincere gratitude to Dr. P. J. Kumarasinghe, Coordinator, MBA/MPM/M.Sc. program, Faculty of Management Studies and Commerce, University of Sri Jayewardenepura for his continuous encouragement to complete the thesis within the deadline.

In addition, I wish to thank Senior Professor (Mrs.) Swarna Piyasiri, former Dean, Faculty of Graduate Studies, and Professor (Mrs.) Hemanthi Ranasinghe, Dean, Faculty of Graduate Studies, University of Sri Jayewardenepura.

Next, I would like to extend my heartfelt thanks to Professor K. B. Mangala Fonseka, Dr. A. R. Ajward and Dr. Dinuka Wijetunga who have offered valuable sessions on academic writing workshop. Without the lessons learnt from them it would have been impossible for me to complete my thesis.

Next, I must acknowledge my thanks to all the participants in the data collection stage of this thesis for kindly sharing their time and experience with me and made this thesis possible.

Last but not least, I would like to give special thanks to my mother Mrs. V. Chandrasegaran, who encouraged so much to complete my thesis within the deadline.

## ABSTRACT

In the today's knowledge based economy [KBE], intellectual capital [IC] is considered as a strategic asset which determines the value of the company. Different practices of disclosing the IC information in annual reports do not result the real value of financial position of the company, is a main problem in Sri Lankan companies. The objectives of this thesis are to develop an ICD index to measure the extent and quality of ICD, to examine the extent and quality of ICD and its practices and to find out the relationship and impact between the firm based characteristics and ICD practices of listed companies on CSE for the period of five- years from 2010 to 2014. Content analysis of annual reports as the qualitative method and questionnaire survey as the quantitative method were used. This thesis is a longitudinal study. Top fifty companies were selected based on market capitalization and the data was collected from the sample companies' annual reports. The ICD index comprised 20 items in terms of Internal Capital Disclosure (InCD), External Capital Disclosure (ECD) and Human Capital Disclosure (HCD). The data was analyzed using parametric tests, correlations and panel regression analysis based on pooled regression, fixed effect and random effect. One-way repeated measures ANOVA and paired sample t-test point out that there was a commonly upward trend for the disclosure of ICD items and categories throughout the period is concerned. Most of the Sri Lankan listed companies are now being disclosed ICD in text, sentences, pictures, tables and graphs with the core discipline of Global Reporting Initiative [GRI] guidelines in their annual reports. ECD was mostly reported in the annual reports of the companies followed by HCD and InCD. According to the pooled regression analysis, GRI compliance, size and board independence had a positive significant impact on ICD. Other factors such as: industry type, age, profitability, leverage and ownership concentration did not have a significant impact on ICD. This thesis has more extended theoretical framework (agency theory, stakeholder theory, legitimacy theory and signaling theory) than previous studies conducted in Sri Lanka to date. This thesis makes an original contribution as a longitudinal study to the growing body of empirical studies on ICD practices in Sri Lanka. The study offers an insight to the corporate and business level managers, policy makers, potential investors and future researchers regarding to ICD practices in terms of extent and quality.
